Dear Rudy:

I hope that all goes well for you in your many projects. Both of our meetings were very useful to me. Thank you for taking the time.

Randy Scott mentioned to me that you two had talked about aid to Guatemalan refugees. I think that it is very important work. Last week AFSC met with the Catholic Peace and Justice Center and I gave their Central American staff person a copy of the George Manuel report (and also a report on violation of the human rights of the Miskito people.)

I owe you at least the working group report and probably other things as well. I did call the Indian Law Resource Center to ask if they had written anything about the Working Group and they had not. Steve Tullberg said he was thinking about writing something. I mentioned to him that we had had a good conversation.

Take care, Rudy.

Sincerely,
