John:

Just a note to transmit the enclosed draft manuscript of my article "The World Bank's New Indigenous Policy". I am now circulating it among WCIP and North American tribal leadership, and hoping to find a suitable publisher for the final cut.

I thought you might be interested in another piece I wrote for the National Congress of American Indians -- designed as a political awareness piece for national leadership. It is an internal document and must remain so until I revise it for publication. You will find enclosed a copy of "New-Termination and the Reagan Administration, U.S. Assimilation Policy with a New Label

Thank you in advance for a copy of "Victims II". I will eagerly read it. Please let me know if you have any further thoughts or relevant communications re. the World Bank's policy document.

An after-thought: Did you receive my piece on "New and Renewable energy"/? Was it useful in your debate over the "Palms"?

Regards,

RUDOLPH C. RYSER
