Dear Tim:

In response to your long-standing request for a copy of my piece on "Neo-Termination", I have enclosed a copy for your information. The analysis is my own and does not necessarily represent the official views of the National Congress of American Indians. I wrote this analysis to assist J. DeLaCruz in his preparation for the NCAI General Assembly in Bismark, N.D. To have released the analysis earlier would have preempted Joe's presentation. The analysis may now be freely distributed as long as the disclaimer (does not necessarily represent the official policy of NCAI) is understood. I hope you find the analysis useful.

Last summer, or was it April? Nathan Jim borrowed a slide-show I presented at a National Indian Fisheries meeting entitled "Fish, Water and Tribal Survival". He said he was going to use it for meetings of the Commission or among fishermen on the Warm Springs. I gave him my address to return the slide rack after he had used it, but to this date I haven't heard from him. The slide show is only one of three copies in existence. Perhaps you would check with Nathan to see if he could return the slide-show. It needs to be revised anyway.

I hope this letter finds you in good health and good spirits. As you know I am working out of my house these days. If I can be of some help to you, please don't hesitate to call.

Regards,

RUDOLPH C. RYSER
